Anatomical Institute

6

Gehoor- en evenwichtsorgaan

**Uitwendig oor
Meatus acusticus externus**

uitwendige gehoorgang:

- naar buiten toe: kraakbeen; meer naar binnen: holte in het os temporale
- bekleed door behaarde huid => dermis gaat over in perichondrium of periost
- hierin veel talgklieren en 'cerumen'klieren

University of Amsterdam
Anatomical Museum

7

**Uitwendig oor
Meatus acusticus externus**
